

Welcome To Our 2024 Mentor Program

Are you ready to take your hairdressing skills to the next level?

Our programs offer more than just technical training - we provide a holistic approach to education that includes personal growth. With our positive hairdressing education, you'll develop the skills and mindset you need to achieve success in both your career and personal life.

Join us on this journey of growth and discovery today!

Mentor Program

If you're a hairdresser looking to take your career to the next level, then our Mentor Program hairdressing workshops are an absolute must-attend event. With over 25 years of experience in developing our own unique method of cutting hair to re-balance the face by cutting shapes in and around bone structure, we are confident that our workshops will inspire a new world of hairdressing.

Our workshops are designed to help you develop confidence and consistency with progressive techniques, as well as the very best client engagement and communication techniques to help your work be understood and respected. The goal is to give you a fresh, modern confidence in hair cutting and hair styling, and to motivate you to shine every month so that salon clients return throughout the year.

Our Mentor Program workshops are for committed hairdressers who want to learn how to be different, stand out, and be inspired and guided to be the very best. We believe that the more you learn, the more you earn in your salon. That's why we're committed to assisting your growth, teaching you the importance and value of style currency in your work, and ultimately changing your life in a positive way.

Attending our Mentor Program hairdressing workshops is an investment in your career and your future. Don't miss out on this incredible opportunity to become the best hairdresser you can be.
